

OPTIONS
FOR
EVERYONE

WE'RE BABY EXPERTS

We have more than 30 years' experience of working to ensure babies grow healthy and happy.

OUR PRODUCTS ARE "MADE IN EU" / WE ARE EUROPEAN

Our products are made in Spain. Soothers and bottles made in the European Community!

BACKED BY PEDIATRIC DENTISTS

The Spanish Society of Pediatric Dentistry, in its constant desire to achieve excellence, supports our research, design and manufacturing processes, as well as the quality controls we subject Suavinex soothers and teats to.

#1

MILLIONS OF PARENTS TRUST US

Parents have made us leaders in feeding bottle and baby dummy sales in Spanish pharmacies*

GRADE A SAFETY

We are members of the Child Use and Care Articles Committee, the institution in charge of drawing up standards for childcare articles in Europe. Therefore, our products stand for top quality, safety and trust.

WE HAVE OPTIONS FOR EVERYONE

Parents can choose from a range of designs, sizes, materials and functions. This host of possibilities allows us to deliver our prime objective: to guarantee the wellbeing of the most demanding babies, and also, to grant parents peace of mind.

FASHIONABLE AND TRENDY

Our bottles and soothers always present the most innovative designs (according to chemists and consumers). Each season we introduce changes in our collections, which have gone from being simple childcare accessories to genuine fashion items.

BREASTFEEDING

Breastfeeding is often combined with other activities and responsibilities. Nowadays, mothers work, care for their family, they're always on the go, and they still find the time to look after themselves. That's highly commendable! Furthermore, they also often want to make other important people share the experience of feeding the baby.

Suavinex offers a range of breastfeeding products meticulously designed to cater for this lifestyle.

OUR DESIGNS ARE INFLUENCED BY THE EXPERIENCE OF THOUSANDS OF MOTHERS

Our products cover each and every need that mothers may encounter during this stage.

INSPIRED BY THE MOTHER'S BREASTS

Our products adapt perfectly to the anatomy of the breast, to provide a more comfortable and easy breastfeeding experience.

INTUITIVE AND EASY TO CLEAN

Our products are very easy to use and to clean, which makes life a lot easier for parents.

“we're here for new families”

The fastest, most hygienic and quietest way to express milk effortlessly. Press the lever softly and rhythmically to create an expression rate that imitates the suction rhythm of breastfeeding. Compatible with all Suavinex wide neck bottles.

Its high absorption capacity expresses excess milk easily. Its anatomical shape guarantees it adapts perfectly to the breast.

+0m

- 1. MANUAL BREAST PUMP REF.3351293
- 2. MILK PUMP REF.3304113

The ideal option when suffering from irritation or broken skin on nipples caused by nursing, given that the thin odourless silicone protects the breast without bothering the baby. Nipple shields also come in handy to correct flat, withdrawn or inverted nipples, since they fit over the breast making it easier for the newborn to latch on.

super thin
2 units

+0m

- SILICONE NIPPLE SHIELDS 2 units REF.304105

SILICONE

These pads absorb milk leakage, keeping the breast area dry and preventing wet clothing. Their anatomical and extra-thin format makes them imperceptible under clothing. They stick easily to the bra thanks to an adhesive strip.

comes in practical 2 unit bags

FEEDING BOTTLES + SOOTHERS + CLIPS

Not only are our feeding bottles, soothers and accessories comfortable and safe, they are also a fashionable feature for trendy babies.

Choose a soother, a clip and a baby bottle from the same collection and combine them.
Our designs go together as twin sets!

“fashion
& innovation”

“the favourite bottles among babies”

- A host of options: the only company to offer the possibility of choosing between anatomical and round teats in latex or silicone.
- Guaranteed by the Spanish Society for Pediatric Dentistry (SEOP)
- With anti-colic valves
- Fashionable and trendy. The designs and colours match a range of soothers and clips.
- BPA free

GUIDE

In terms of the shape and flow of the teat

ROUND TEAT

Slow flow teat +0m

ideal for the first days of the newborn's life.

Baby food teat +4m

makes suction easier for babies eating thicker food, such as baby food and milk with cereals.

3 position teat +0m

rotate the bottle to control the flow of liquid depending on the baby's needs or the type of food.

ANATOMICAL TEAT

Anatomical teat 0-6m / +6m

available in two different sizes and a range of flow options, the shape mimics the mother's breast during suction.

GUIDE

Depending on the age of the baby

	SIZE 1	SIZE 2	ONE SIZE
S SLOW FLOW	0-6m		+0m
M MEDIUM FLOW	0-6m	+6m	
L DENSE FLOW		+6m	+4m
3P 3 POSITION FLOW			+0m

Remember these are indicative guidelines. Babies develop at different speeds.

TEETHERS AND RATTLES

Teething is an uncomfortable period for babies. Our range of teethers soothes the inevitable pain that comes with teething, and will also distract them and bring a smile to their face.

SOOTHING COLD

Chilled teethers are designed to be stored previously in the fridge. Cold notably soothes the baby’s inflamed gums.

DIFFERENT MATERIALS AND TEXTURES

The combination of materials and textures contributes to strengthen new teeth and help them break through the gum.

THEY STIMULATE THE SENSES

The colours, sounds and forms stimulate the baby’s eyes and ears, as well as their fine motor skills.

0% BISPHENOL A

Our products are BPA free.

Press the flower to hear a pleasant melody.

STERILISING AND CLEANING

During the first months of the baby's life, you need to sterilise bottles, teats, soothers, toys... and just about everything the baby might suck to avoid tummy infections. Suavinex helps you protect your baby with two different sterilisation systems: hot and cold.

EFFICIENCY

Scientific research confirms the grade A efficiency of our products when removing germs and bacteria.

EASY TO USE

These products are very easy to use.

QUICK

Keeps all accessories clean and in a perfect hygienic condition.

FRAGRANCES

Smell and the sense of smell are very important during the first months of your baby's life. Babies start to develop their olfactory memory from the moment they are born, creating a pleasant link with the environment. Suavinex has designed these low-alcohol content colognes for loveable moments and special occasions.

“a few drops of sweetness”

LOW ALCOHOL CONTENT
Composition designed for delicate newborn skin.

NO STAINS
The fragrance will not stain clothing.

PERFECT FOR BABIES AND MUMS
Share the same fragrance.

The low alcohol content makes it ideal for after bathing or for refreshing the baby at any time of the day. Touches of citrics, white flowers and musk.

for babies and mummies!

unisex

+0m BABY COLOGNE 100ml REF.3152340

The perfect scent for use before going out for a walk. A swirl of bergamot, mandarin and lemon for boys, and a floral, fruity fragrance for girls.

COSMETICS

Skincare is very important for expecting mums and newborns. Suavinex has designed the Body Luxuries line to care for baby's delicate skin. Expecting mums can use the skincare line to keep skin soft and healthy during pregnancy and to prepare skin for post-partum.

EFFICIENT AND SAFE

No parabens, no petrolatum, no artificial colouring and no sodium lauryl sulphate.

INNOVATIVE AND DIFFERENT

High-end cosmetics at affordable prices.

“deluxe
skincare”

Prevents and treats stretch marks adding elasticity thanks to a combination of rosehip oil, centella and ivy.

pleasant fragrance

pregnancy and post-partum

ANTI-STRETCH MARKS 400ml REF.3159888

Moisturises and soothes sensitive nipples with its exclusive combination of lanolin and St John's wort. No need to wash it off before breastfeeding.

100% ultra-pure lanolin

pregnancy and post-partum

NIPPLE CARE CREAM 20ml REF.3311146

Improves skin flexibility and elasticity when preparing for childbirth. The combination of essential fatty acids also helps regenerate tissue after giving birth.

respects the pH of this intimate area

pregnancy and post-partum

PERINEAL MASSAGE OIL 20ml REF.3162541

Boosts collagen formation and combats sagging skin. The formulation, rich in skin restructuring and firming ingredients, helps recover skin tone.

adapted to the nursing period*

*Avoid the nipple and areola area

pregnancy and post-partum

BODY RESTRUCTURING CREAM 400ml REF.3159890

As well as gently cleansing the baby's skin and hair, its foamy texture, colour and Baby Cologne scent help stimulate the senses. It contains natural fatty acids derived from coconut oil, which help prevent dryness and irritation.

stimulates the baby's senses
pH 5.5

FOAM CLEANSING GEL AND SHAMPOO 400ml REF.3174291
FOAM CLEANSING GEL AND SHAMPOO 750ml REF.3174293

baby

Provides effective protection against chaffing, while helping skin generate. Titanium dioxide forms an effective absorbent barrier that protects the epidermis from external irritants.

with next-generation peptides
easy to apply on the skin

NAPPY CREAM 75ml REF.3311147

baby

Beeswax, rich in nutrients, and oil of evening primrose are ideal for even the driest skin as they protect against external damage. It also includes ceramide and cottonseed oil, which helps to restore the skin's natural barrier function, keeping it moisturised for longer.

ultra-moisturising formula
pH 5.5

NOURISHING CLEANSING GEL 400ml REF.3174294

baby

Nourishes the baby's skin, protecting it from external aggressions and leaving it smooth and soft thanks to its combination of plant oils. Its pH 5.5 helps form the skin's acid mantle.

fast-absorbing texture
pH 5.5

MASSAGE BODY LOTION 400ml REF.3311151
MASSAGE BODY LOTION 750ml REF.3167105

baby
